POLICE REPORT

LEGIONE CARABINIERI SICILIA COMANDO PROVINCIALE DI "PALERMO"

OPERATIVE DEPARTMENT – INVESTIGATIVE UNIT

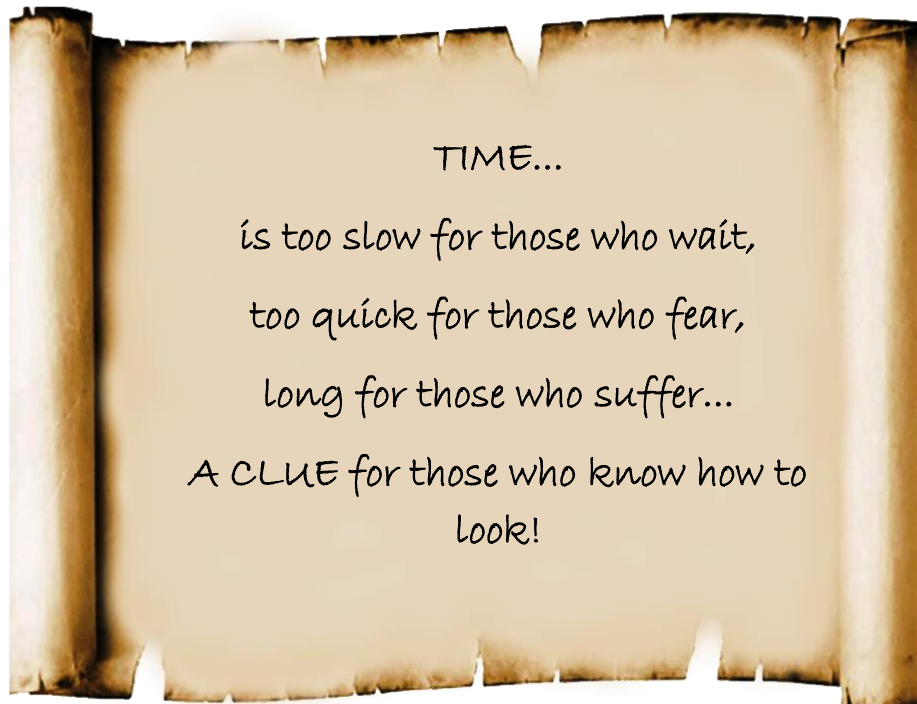

03/03/2060

NAME: Luca
SURNAME: Gentili
DATE OF BIRTH: 17/10/2032
PLACE OF BIRTH: Palermo

On this day, Mr. Luca Gentili, born in Palermo on 17/10/2032, and resident in Via Taldeitali snc in Palermo, identified with apparent brown hair and blonde lock on the back, was sitting on the Blue bus reserved for people with brown hair. Mr. Gentili declares that he was on his way to work and that he was standing on the bus. After filling the bus, he reported that he had decided to sit down, falling asleep after a few minutes.

Mr. The Spy, after noticing his blonde hair, called the Carabinieri. An initial investigation leads to believe, that Mr. Gentile would have had blond hair until a few weeks earlier. At the moment, the boy is detained at the command of the carabinieri until the judgment of the judges. Further investigations are needed, especially to establish his guilt.

MAP

COMPASS POINT

LUCA'S DIARY

20th November

I don't really know what's going on... One of my
friends was fired because of the colour of his
hair. The new president makes crazy speeches, but how
could this guy win the election?

22nd November

My blonde strand worries me... I would like to colour it,
it is forbidden to buy hair dye, so I ordered a brown
colour pack on the internet from Kazakhstan. I hope the
government doesn't control my searches and PC
history!

24th November

People are going crazy, fighting on the street... How did
we get to this point? I don't understand what's going
on. What happened to the right to be free, to be yourself?

3rd December

Here we go. Madness has become law. Today the
President issued a gruesome decree... The government
starts officially registering blond people. I'm very
worried. Is having blond hair now a fault? how can
you get to this point...

5th December

I've never written so often in my diary, I'm afraid to
talk to people. Who can I trust? The only one I trust is
...FULVIO... he too blond... and he too terrified. He
doesn't show it because he is always so smiling with
that intellectual air, always elegant... I admire him
very much.

12th December

It's a nightmareeee!!! They arrested my friend Fulvio!

Just because he was walking with his girlfriend Giulia,

who is brunette! I decided to collect photos and

identification numbers during the arrest of some of the

people I know, including that of Giacomo.

RACIST MANIFESTO

Defence and Protection of Chestnut People

This decree was issued by the Board of the City of Palermo and promoted by the Commission for the defence of chestnut people on 3 December 2059

Please read this decree CAREFULLY

- having regard to the spread of false beliefs over the last few centuries that blond people have declared themselves to be a superior race;
- Since this superiority has prevented blond people over the last few centuries to enjoy undeserved privileges and rights;
- Since brown people need special protection to protect their interests.

This decree sets out the main articles that establish the superiority of brown people over blond ones, reassigning all the rights that have so far remained unknown.

Art. 1

This manifesto explicitly declares the superiority of chestnut people over blondes;

Art. 2

Blond people must comply with the provisions of this decree, without distinction of shades of blond: light blond, dark blond, ash blond, all fall under the category of the decree. These will henceforth be referred to as "Blondes".

Art.3

"Blondes" will have to attend schools specially created for them. The institutes are indicated in the list posted in the gates of the cathedral of Palermo.

Art. 4

A supervisory body is set up to ensure that the decree is complied with. This will be in the form of invisible telescopes scattered throughout the city.

Art. 5

"The blond" will have to get on the buses for the blond, without trying to get on those with air conditioning, appanage only and exclusively of chestnuts.

Art. 6

"Blondes" can marry and mate only with other blondes, to avoid contaminating the chestnut race.

Art. 7 - The Judging Committee

"Blondes" must strictly comply with every article of this decree. The infringement cases will be evaluated from time to time by a specially created committee of judges, who will meet secretly in the <<judgment room>> to make the judgment. The defendants are not expected to be present either in the decision-making or in the deliberations. The case will be considered closed when the committee delivers the sentence accompanied by related sound symbolic action.
